

Friends of Agriculture in Nova Scotia

Grant Application Form – 2015

FANS VISION: Healthy fields, farms and food for the people and communities of Nova Scotia now and in the future. **MISSION:** Educating ourselves and others with regard to local and global issues, seeking solutions, and promoting food security and sustainability within an interconnected framework

FANS will grant certain sums of money to organizations that seek to provide education and to create networks of people who further our goals:

GOALS: We will educate ourselves and others about issues that affect the food supply for Nova Scotians. These issues include local and global trends, availability of a secure and sustainable supply, the economy, health, financial opportunities for food producers and individuals, reversibility of rural decline, climate impacts, and the social and cultural benefits of producing food. We will foster networking among citizens, farmers, economists, specialists, politicians, academics and all others who contribute to solutions.
